PRICE LIST - - SPRING 1943 HARWELL NURSERY

Van Buren, Arkansas
Phone 10F12
East of Van Buren, On Kibler Road
Rural Route No. 1

WE PAY ALL DELIVERY CHARGES

TO OUR CUSTOMERS:-

Prices include carrying charge either by Parcel Post, Motor Freight or Railway Express, unless otherwise stated. We pay all delivery charges. Make your order for \$1.00 or more to get lelivered prices.

We find we have large quantities of stock as nice as can be grown suitable for mail and because the war effort needs practially all available shipping space we rather shell the smaller plants and let you watch 'em grow.

It is very necessary to see that roots of live plants are not exposed to air anarunshine. It is a good practice to place the roots of evergreens in abucket of water and plant immediately. If necessary to keep plant for a few days, better open package and heel-in plants in soil being car eful to see that roots have dirt around them so they vill not cary out. Use plenty of water if soil is dry or late in season. Strawberry plant tops should not be wet when heeling-in.

The height given in feet or inches is minimum size and in most instances the plants will be somewhat larger. It is our desire to please you and give you your moneys worth or your money back.

Keep in mind, "The early bird gets the worm." Far better to plant while stock is dormant.—Loal Harwell.

EVERGREENS

ABELIA GRANDIFLORA—This is a wonderful plant having small dark glossy green leaves all winter and covered with small white flowers all summer, growing to about 6 feet tall, but may be kept much lower by pruning. 18 in. 25c; 1 yr. about 6 in.	10c
ARBORVITAE—Some call this pressed cedar—we have many varieties: Bakers, a tall growing pyramidal reaching	100
finally about 10 ft. green foliage, grows fast. 12 in. 25c; 18 in.	40c
Special Green, doesn't grow near as tall as Bakers and a	40
finer foliage. 12 in. 25c; 2 ft.	40c
Bonita, a slow, dwarf, globe growing variety. 12 in.	25c
Berckman Golden, reaches a nice golden color in winter	0.5
and does not grow as tall as Bakers: 12 in.	250

BOXWOOD—The very best slow growing, small leaved, very dense foliage, evergreen grown. 8 in. well spaced 30c; 1 yr. rooted plants about 6 in.	20c
EUONYMUS—Japonica variety grows upright, has very dark green leaves, fine for hedge or specimen planting. 12 in.	250
Patens, produces berries, and bronze foliage in winter, more spreading than Japonica. Colorata, this is a vine for ground cover or training to walls, being green in summer and turning to red with	
winter. Strong plants 25c; plants about 6 in. nigh well rooted	100

APRICO				
Early Golden, quite early and fair 2 to 3 ft.	quality. 3 to 4 ft. 35c; 25e			
PLUMS				
America, red, early; Gold, golden season; Bruce, a fine red plum, colored flesh, late, large; Blue Darft. up 35c; 3 to 4 ft. 25c; 2 to 3 ft.	early; Hanska, apricot			

SPECIAL CHERRY-PLUM	
We found these trees at Mulberry near the back porch of a dwelling house, apparently where prune seed had been thrown. One of these trees resembles the sweet cherry in growth and leaf, producing fruit resembling the wild plum and about the same size, with very tough skin, ripening late August or Sept. and bids fair to be a worth-while fruit, trees about 18 to 24 in., each	25c
The other tree grows very much like the native varieties of plums, leaves similar, produces fruit very much like the Blue Damson plum, but much earlier. 18 to 24 in.	
CHERRIES	
Early Richmond, early sour pie cherry; Montmorency, a little later than Early Richmond, sour pie, larger; Black Sweet, grows well, good fruit but not so much of it; Yellow Sweet, tree grows well rather shy bearer. 3 to 4 ft. 35c; 2 to 3 ft.	25c
PEARS	,
Bartlett, summer, sugar; Garber, fall, eating and canning; Early Wilder, early pear; Douglas, bears young, late in season; Keiffer, old standby, late preserving and canning. 4 ft. up 35c; 3 to 4 ft. 25c; 2 to 3 ft.	20c
GRAPES	
Fredonia, early black, good grower, ripens evenly; Concord, mid-season, blue-black, it fills the basket; Sheridan, late, black. Delaware Red, small berry and bunch, fine quality; Niagara, white, mid-season, large berry and bunch; Portland, white, early, good sized berry and bunch. 2 yr. plants 15c; 10 for \$1.00; 100 for	
fine fruit, strong vines	25c
ASPARAGUS Mary Washington, 2 yr. Doz. 30c; 100 for	¢1.75
Khubarb plants, red Victoria, strong, each 9c; Doz.	
Youngberry and Ozark Beauty Blackberry plants, each 5c; Doz. 35c; 50 for \$1.25; 100 for	\$2.00
Boysenberry, Latham Red Raspberry and Black Raspberry plants. Each 6c; Doz. 40c; 50 for \$1.35; 100 for	\$2.50
Strawberry plants: Blakemore and Klondike. 40c per 100. 1000 plants not prepaid for	_\$3.00 20c
	. ~
PAPERSHELL PECAN AND GRAFTED THOM	AS
BLACK WALNUT	
Stuart papershell, probably the best for this section; Miss. Giant (Meyhan); Burkett, a pecan that is quite round. Stuarts in 4 to 5 ft. \$1.25; 10 for	_\$9.00
pecan except they take each rate and no discount on quantities.
